SKILLS

Technical Skills

- Software Development
- Database management MySQL, SQLite, SQL
- Version Control: Git, GitHub
- Operating Systems: Windows, Linux
- Computer networking fundamental
- Software Development Life Cycle (SDLC)
- Information Security Fundamentals
- Microsoft Office Suite (Word, Excel, PowerPoint)

Soft Skills

- Analytical and Critical Thinking
- Problem-Solving
- Attention to Detail
- Communication Skills
- Teamwork and Collaboration
- Time Management
- Adaptability and Willingness to Learn
- Professionalism and Integrity

LANGUAGES

- English (Fluent)
- Afaan Oromo (Native)
- Amharic (Native)

PROFILE

- I am a recent Computer Science graduate with a genuine interest in technology and a passion for learning and solving problems. Throughout my studies, I built a strong foundation in software development, databases, computer networks, and information systems while developing analytical thinking and attention to detail. I enjoy working in collaborative environments, adapting to new challenges, and continuously improving my skills. I am eager to begin my professional career, contribute to a dynamic team, and grow through hands-on experience and continuous learning.

WORK EXPERIENCE (INTERN & PROJECTS)

Machine Learning Project: East Hararghe Weather Prediction System (Final year project

- Developed a rainfall prediction model using Python.
- Cleaned and analyzed weather datasets.
- Built a REST API using FastAPI.
- Utilized PostgreSQL and Supabase database.
- Created an interactive dashboard using Next.js.

IT Intern, Awash Bank (2-Month Internship)

- Acquired hands-on experience in banking operations and the integration of information technology in daily business functions.
- Assisted with routine IT tasks, adhering to professional standards, security protocols, and organizational policies.
- Collaborated with experienced staff to gain insight into IT systems, technology support processes, and the significance of information security and data confidentiality.
- Enhanced skills in professional communication, teamwork, time management, and problem-solving within a corporate setting.

Academic Project: Electronics Control System

- Designed and developed a system to manage and track electronic devices assigned to employees.
- Created a system for employee registration and electronic asset documentation, covering laptops and other equipment.
- Implemented features for registration, asset management, and verification to improve accountability and tracking.

EDUCATION

HARAMAYA UNIVERSITY 2025 - 2029

Bachelor of science in Computer Science

GPA: 3.58 / 4.0
